

## SERVICE

### Current ODIS Service Software Versions

Updated 05/20/2013

Recent updates indicated by **bold/red** text.

| Recovery DVD Versions* |           |                      |           |
|------------------------|-----------|----------------------|-----------|
| Tester*                | Version   | DVD Ordering Numbers | DVD Color |
| VAS 5051B              | V2.0      | K02.5001.32.21       | Red       |
| VAS 5052A              | V15.00.00 | K01.5001.42.21       | Red       |

\*Each Recovery DVD is specific to the VAS 505X devices only. Confirm the VAS 505X application from the DVD label and only install on the applicable tester. **\*\*\*NOTE: VAS 61XX devices do not require a DVD to perform the Recovery procedure.\*\*\***

| ODIS Service Installation Version | DVD Ordering Number   | CD Color     |
|-----------------------------------|-----------------------|--------------|
| <b>V1.2.0**</b>                   | <b>006.5002.02.21</b> | <b>Multi</b> |

\*\*Use for initial (new) installations, reinstallations, and to update V1.1.3.

| Utility CD Version:        | CD Ordering Number | CD Color |
|----------------------------|--------------------|----------|
