

Program Bulletin

CUSTOMER SATISFACTION PROGRAM

SUBJECT: Missing Floor Mats

MODELS: 2014 Chevrolet Silverado
2014 GMC Sierra
Equipped with Rubber Floor Mats (B32)

There is currently a shortage of base rubber floor mats. Involved vehicles are being shipped to dealers without the floor mats. Although all involved vehicles will be loaded into IVH, do NOT perform this program on vehicles in dealer inventory. At this time, only vehicles being delivered to customers are to have this program performed. When sufficient mats are available, this bulletin will be revised with new part numbers and vehicles in dealer inventory can then be repaired.

CONDITION

Due to a shortage of base rubber floor mats (B32), **certain** 2014 model year Chevrolet Silverado and GMC Sierra vehicles, equipped with base rubber floor mats, were shipped without the floor mats.

CORRECTION

Dealers are to install the base rubber floor mats when they become available. In the meantime, **for sold vehicles only**, dealers are to install carpeted floor mats. When the base rubber floor mats become available, the customer will be advised to contact their dealer to have the mats installed.

VEHICLES INVOLVED

All involved vehicles are identified by Vehicle Identification Number on the Investigate Vehicle History screen in GM Global Warranty Management system. Dealership service personnel should always check this site to confirm vehicle involvement prior to beginning any required inspections and/or repairs. It is important to routinely use this tool to verify eligibility because not all similar vehicles may be involved regardless of description or option content.

For dealers with involved vehicles, a listing with involved vehicles containing the complete vehicle identification number, customer name, and address information has been prepared and

will be provided to dealers through the GM GlobalConnect Recall Reports. Dealers will not have a report available if they have no involved vehicles currently assigned.

The listing may contain customer names and addresses obtained from Motor Vehicle Registration Records. The use of such motor vehicle registration data for any purpose other than follow-up necessary to complete this program is a violation of law in several states/provinces/countries. Accordingly, you are urged to limit the use of this report to the follow-up necessary to complete this program.

DEALER PROGRAM RESPONSIBILITY

All unsold new vehicles in dealers' possession and subject to this program must be held and inspected/repaired per the service procedure of this program bulletin before customers take possession of these vehicles.

Dealers are to service all vehicles subject to this program at no charge to customers, regardless of mileage, age of vehicle, or ownership, from this time forward.

Customers who have recently purchased vehicles sold from your vehicle inventory, and for which there is no customer information indicated on the involved vehicle listing, are to be contacted by the dealer. Arrangements are to be made to make the required correction according to the instructions contained in this bulletin. Program follow-up cards should not be used for this purpose, since the customer may not as yet have received the notification letter.

In summary, whenever a vehicle subject to this program enters your vehicle inventory, or is in your facility for service in the future, you must take the steps necessary to be sure the program correction has been made before selling or releasing the vehicle.
