What is the issue?

A quality package has been defined for Audi vehicles with a 4.0L TFSI engine manufactured within a specific period.

What does the repair procedure involve?

Perform quality update(s) to vehicle as required, as per applicable criteria shown in ElsaWeb.

When will the Update be available?

This Update will be visible in ElsaWeb and ServiceNet on or about July 23, 2013.

Please refer to the ElsaWeb campaign/action screen for confirmation of whether the Update applies to each specific vehicle. Additionally, this Update is posted on ElsaWeb and ServiceNet for additional information and complete repair instructions.

Consistent with general Audi corporate policy governing Updates, Audi is not notifying consumers. (Updates differ from recalls and service actions; consumers are notified in writing of recalls and service actions.) Each vehicle should be completed when it is in to the dealer for maintenance or any other service visit. Dealer stock vehicles **cannot, however, be delivered** to consumers until the Update is completed.

To identify any vehicles in your inventory that are affected by this Update, please run the "New and CPO Inventory Open Campaign/Action Listing" report from the AIM system.

Please ensure that every affected vehicle gets the update before delivery to consumers. Your effort is integral in reaching the highest quality expectations of Audi customers.

Thank you for your cooperation and assistance in this important matter.
