44124 Customer Satisfaction Program 13B07 Fuel Economy Improvement - Powertrain Control
Module Calibration

Certain 2013 Model Year C-MAX, Fusion, and MKZ Hybrid Vehicles - Fuel Economy Improvement -
Powertrain Control Module Calibration When updating the PCM and SOBDM-C
modules as part of FSA 13B07, use IDS R85.05 and either the VCM I or the VCMII.
If the IDS software has been updated to R86.00, the user must update to R86.01
and use the VCM I. Do not use the VCM II and IDS R86.01 to perform FSA 13B07.
