

**ONLINE AUTOMOTIVE SERVICE INFORMATION SYSTEM
FOR MAY 2013**

32246 2013 Focus S - Instrument Panel Cluster (IPC) Message Center Outside Air Temperature (OAT) Display Defaulting to °C

Some 2013 Focus S model vehicles built on 4/19/2013 and through 4/29/2013 may exhibit the IPC message center OAT display defaulting to °C. Additionally, the ability to switch the display back to °F is disabled. Engineering is currently investigating this condition through the quicker service fix (QSF) process. Until a new service procedure and/or parts are available, replacing or reflashing the IPC will not resolve this concern. Monitor OASIS for updates.
