

ONLINE AUTOMOTIVE SERVICE INFORMATION SYSTEM FOR JUNE 2013

32274 2013 Focus Open BCM Fuse F60 With Inoperable Dome, Vanity Mirror, Luggage Compartment, Interior Lamps And Master Window Switch.

Some 2012 and 2013 Focus vehicles may exhibit an inoperable master window switch, and Dome, Vanity Mirror, Luggage Compartment, Interior Lamps. This may be caused by an open F60 fuse in the Body Control Module (BCM). Prior to performing normal diagnostics, check for a possible pinched circuit CBP-17, near the right side sun visor, above the headliner. Repair the circuit following procedures detailed in Wiring Diagram, Section 5-1. Refer to current Service Labor Time Standard Information.
