

Service Bulletin

PRELIMINARY INFORMATION

Subject: Information for Control Module Part Service Name Using Mixed References – Fuel Pump Control Module vs Chassis Control Module

Models: 2014 Buick Enclave
2014 Cadillac CTS Coupe, Wagon, CTS-V, Escalade
2014 Chevrolet Express, Impala Limited, Silverado 2500-3500 HD, Suburban, Tahoe, Traverse
2014 GMC Acadia, Savana, Sierra 2500-3500 HD, Yukon, Yukon XL

Information

Beginning in the 2014 model year, most vehicles completed the transition to the component part service name **Chassis Control Module** in all publications and service tools, consolidating the former component part service names of: Fuel Pump Control Module, Fuel Pump Flow Control Module, Fuel System Control Module and Fuel Pump/Trailer Brake Control Module.

During this transition a limited number of vehicles will continue to reference the original component part service names in Service Information (SI) diagnostics and schematics while the Electronic Parts Catalog (EPC) and GDS 2 may refer to the component part service names as Chassis Control Module. In order to help clarify the use of these mixed references, the part service name **Chassis Control Module**, along with the original component part service name which will be **preceded by AKA:**, will be used in the Service Programming System (SPS) and in Service Information routing tables such as the Control Module References and Master Component Lists.

Example of Chassis Control Module Identified by Transitional and Previous Control Module Names in Control Module References in SI

Control Module References

2 → K38 →	Chassis Control Module Scan Tool Information AKA: Fuel Pump Control Module	Engine Controls Schematics	Chassis Control Module Replacement or Fuel Pump Flow Control Module Replacement	Chassis Control Module Programming and Setup AKA: Fuel Pump Control Module
K39	Liftgate Close Actuator Motor Control Module Scan Tool Information	Liftgate Schematics	Accessory and Liftgate Control Module Replacement	Liftgate Control Module Programming and Setup
K40	Seat Memory Control Module Scan Tool Information	Driver Seat Schematics	Memory Seat Control Module Replacement	Memory Seat Control Module Programming and Setup
K41R	Object Alarm Module Scan Tool Information	Object Detection Schematics	Rear Object Alarm Control Module Replacement	Object Alarm Module Programming and Setup after object alarm module replacement
K47	Rear Differential Clutch Control Module Scan Tool Information	Rear Axle Schematics	Rear Differential Clutch Control Module Replacement	Rear Differential Clutch Control Module Programming and Setup after CCM replacement
K61	Sunroof Control Module	Sunroof Schematics	Sunroof Motor/Actuator Replacement	Sunroof Control Module Programming and Setup
K64	Theft Deterrent Module Scan Tool Information	Immobilizer Schematics	Theft Deterrent Module Replacement	Theft Deterrent Module Programming and Setup
K71	Control Solenoid Valve and Transmission Control Module Assembly Transmission Control Module Scan Tool Information	Automatic Transmission Controls Schematics	Control Solenoid Valve and Transmission Control Module Assembly Replacement	Control Solenoid Valve and Transmission Control Module Assembly Programming and Setup
