PRELIMINARY INFORMATION

Subject: Rearview Camera Display Has Low Contrast When Backing Up in Direct Sunlight and/or at Night

Models: 2011-2013 Chevrolet Volt
Equipped with Rear Back Up Camera (RPO UVC)

Condition/Concern

Some customers may comment that the rearview camera display has low contrast (fuzzy, blurred, etc.) when backing up into direct sunlight and/or at night. This condition may be caused by a reflectivity of white diamond tri-coat paint in bright sunlight.

Recommendation/Instructions

If SI diagnosis does not isolate the cause of this concern, replace the rearview camera image display module. Refer to Rearview Camera Image Display Module Replacement in SI.
