“Right first time in Time”

Note: This document supersedes the previous PB 23-010 dated 01-10-2013. MY 2013 has been removed and MY 2014 has been added.

Volvo Cars of North America (VCNA) is applying its prior approval process for fuel pump, level sender, and tank replacement claims submitted on the vehicles listed in the TJ header. The Prior Approval Department must be contacted for all warranty fuel pump, level sender, and tank replacement claims on the vehicles listed below.

The Prior Approval Department must be contacted for authorization codes for operation number 23341-2 and 23412-2. This applies to Model Year 2014 S60 with engine code 61.

Note! It’s possible to pick the wrong P/N for the fuel pump if you follow the parts catalog for function group 2.3.4. If you follow the parts catalog for function group 2.3.3 (Fuel pump), the correct P/N will be indicated.

This is not a parts restriction process. Parts availability questions should be directed to the Parts Retailer Services Department.

See Technical Journal 27271 Prior approval for 2014 S60 T5 fuel pump, level sender, and tank for complete details.
