Description

Model 579 RH U/C Closeout for DPF Harness

Release Date

9/10/2013

Introduction

Peterbilt has determined that certain Model 579 vehicles built between 11/05/2012 and 07/15/2013 were built with RH U/C Aerodynamic closeouts that have incorrect cutout locations for the after treatment harness.

Expiration Date: 09/10/2014

Resolution

Modify the cutout locations in the aerodynamic closeouts that will allow correct routing of the RH U/C after treatment harness.

Please Note: Add windlace or equivalent to modified edges. See procedure

Warranty

The SIR system will indicate chassis involved in this field repair with the designator "713-1" in the campaign field. File Quick Claim **713-1**

If the vehicle is affected and is shown to have an open campaign, please complete the work and file a new truck claim:
