RE: Service Campaign 2013080001 - Model 166 (ML), X166 (GL) Model Year 2014. Check Coolant Hose Position	DATE: August 30, 2013

IMPORTANT SERVICE CAMPAIGN INFORMATION

This Service Campaign is being launched today and the 1,150 affected vehicles will be flagged in VMI.

Owner Notification - As this is a voluntary customer care initiative, **no customer letter will be mailed.**

Parts - No parts are required.

Background

Daimler AG (DAG), the manufacturer of Mercedes-Benz vehicles, has determined that the coolant hose position may not be correct which may cause the lower radiator hose coupling not to lock into place. An authorized Mercedes-Benz dealer will check, and if necessary, correct the coolant hose position at the next workshop visit.

When scheduling customers for an appointment please ensure that you are aware of any open campaigns in VMI so that the customer is advised about the time necessary to complete all campaigns.

Note: VMI must always be checked before performing campaigns to verify that the campaign is required on a specific vehicle.

Dealers may also identify vehicles subject to a campaign through NetStar by selecting "Campaign" under the Controlling tab. Only vehicles that have been retailed by the respective dealer will be displayed within this program.

While we regret any inconvenience this may cause, Mercedes-Benz USA, LLC is determined to maintain a high level of vehicle quality and customer satisfaction.

Please refer all customer inquiries to the Customer Assistance Center at 1-800-FOR_MERcedes (1-800-367-6372).
