

Mercedes-Benz

The best or nothing.

star bulletin

Date: November 14, 2013
Order No.: P-B-00.20/103
Group: 00

SUBJECT: MY-All, Model 117.352

Rear Axle Differential Oil Change

Ensure that maintenance is conducted according to manufacturer guidelines for the above-mentioned AMG vehicle. Service item (Figure 1) (1) "Rear axle: Change oil" must be observed for every Service A.

This additional operation "Rear axle: Change oil" is only partially controlled through ASSYST or the workshop code and is therefore also not always displayed automatically in the vehicle-specific service sheets in the WIS/MSS.

The service overviews can be used to determine the service item. The required procedure is below.

NOTE: The drain screw no longer needs to be replaced. Remove sealing ring from drain and filling screw and replace with new sealing ring.

WIS – Service Overview

1. Open and log in to WIS.
2. Enter VIN or 6-digit chassis number.
3. Select "All maintenance documents" item in "1st information" tab.
4. Select "Display 2nd maintenance document" tab.
5. Choose correct "OVERVIEW for service sheet" folder by double clicking it.
6. Scroll to service item (Figure 1) (1). This required service is listed in the Overview for service sheet.

This bulletin has been created and maintained in accordance with MBUSA-SLP S423QH001, Document and Data Control, and MBUSA-SLP S424HH001, Control of Quality Records.
