

Mercedes-Benz
The best or nothing.

star bulletin

Date: November 8, 2013
Order No.: T-B-00.20/102
Group: 00

SUBJECT: MY-All, Models 463.246/.271/.273
Differential Oil Change - Front and Rear Axle

All AMGs for above 463 models with locking differential code 471, require service: "Rear axle: Change oil" once at 2000 miles and if differential is replaced. This operation is not automatically in the vehicle-specific WIS service sheets and is done once for front and rear axle.

1. The label (Figure 1) is should be on the windshield of affected vehicles.

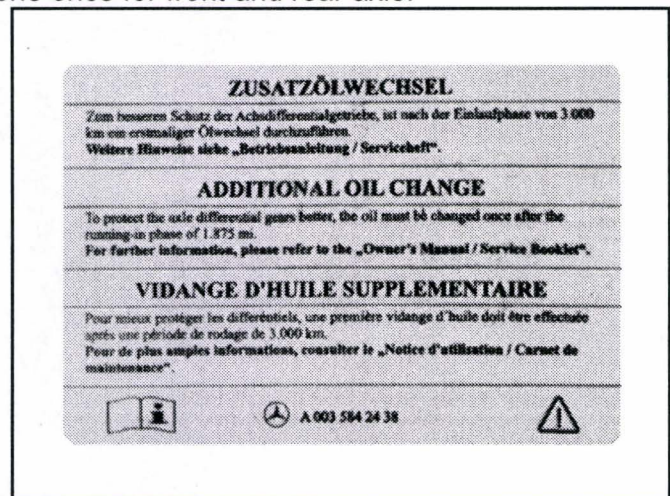

Figure 1. Additional Oil Change Label P00.20-2736-01

2. Service overviews can also be used to determine if a vehicle is affected. Enter a 6-digit chassis (Figure 2) or VIN in WIS and check under the option "All maintenance documents."

This bulletin has been created and maintained in accordance with MBUSA-SLP S423QH001, Document and Data Control, and MBUSA-SLP S424HH001, Control of Quality Records.

Recording Car Service Data

Entering an interim service

For a DSB vehicle you can also enter a so-called "Interim Service" along with a Service A or Service B.

Note: An interim service is not a substitute for Service A or and therefore it does not justify any claims for warranty & goodwill services (in, particular with reference to Mobilo, rust-through warranty).

- 1 To create an interim service please enter the "VIN" to be searched for, click on "Search" and then on "New Service".
- 2 Set the check mark for workshop code to "Not available".
- 3 A drop-down list now appears on the "Service" field in which you can enter "Interim service".
- 4 After confirming the prompt asking if you really want to create an interim service, the entry screen is minimized. Record the corresponding data as for the "Normal" service explanations.

Note: "Mercedes-Benz mobility services" and "rust-through warranty/perforation warranty" cannot be selected. An "Interim service" cannot be subsequently changed to a "Service A/B".

Figure 5. Documentation of Performed Service Item in DSB.

P00.20-2753-11

Document the service in DSB (Figure 5) as an "intermediate service" and print out a service report for the customer.

Detailed training documents are on the Mercedes-Benz After-Sales portal: Home > Products & Solutions > Product Information > Digital Service Booklet DSB > Downloads > Downloads Brief Instructions

This information **must** be considered to ensure maintenance according to manufacturer guidelines is provided for affected vehicles.
