General Motors is announcing Safety Recall 13230 today. Please see the attached bulletin for details.

Vehicles involved in Safety Recall 13230 were placed on Stop Delivery July 11, 2013. Completion of the service procedure contained in bulletin 13230 will release the vehicle from Stop Delivery.

The total number of U.S. vehicles involved is 836. Most of these vehicles are being held at VDCs. Approximately 200 have been delivered to dealers.

As vehicles are repaired at the VDCs, the recall will be closed in IVH. To ensure you are not repairing a vehicle that has already had the repair performed, check vehicle eligibility in IVH prior to repairs.
