

	GROUP Body Electrical	MODEL 2014MY Optima (QF/TF HEV)
	NUMBER PS286	DATE December 2013
		
SUBJECT: WINDOW LOCK LOGIC CHANGE		

To improve feature usability, and customer satisfaction, a modification has been implemented to the logic of the power window lock feature on the 2014MY Optima (QF/TF HEV). Activation of the window lock feature will no longer apply to the front passenger window, only the rear driver and passenger side windows. Additionally, all windows can now be controlled from the master switch, regardless of the lock switch position.

Model Year	Passenger Window Lock	Rear Window Lock	Master Switch Control
2012~2013	Yes	Yes	No
2014	No	Yes	Yes
