REVISION NOTICE

October 3, 2013 Rev1:

- Applicability has been updated to include 2014 and additional 2012 2013 model year vehicles.
- The Required Tools & Equipment information has been updated.

Any previous printed versions of this bulletin should be discarded.

Introduction

Toyota models equipped with the Premium HDD Navigation (AVN/AW-EMV) System will periodically require an update to the Gracenote[®] Database. Gracenote[®] includes detailed information for songs (i.e., Genre, Artist, Song Title, Album Name, etc.). The Gracenote[®] update will be included on the "USB Drive Navigation Map Update" SST. A Gracenote[®] update must be performed before a Navigation Map Update. A Navigation Map Update is not required to complete the Gracenote[®] update. Use the process described in this bulletin to perform the update.
