

Subject

Fuel Filter Part # Clarification

Market

USA

Service Category

Engine/Hybrid System

Section

Fuel System

Applicability

2013 Scion FR-S

APPLICABLE VEHICLES

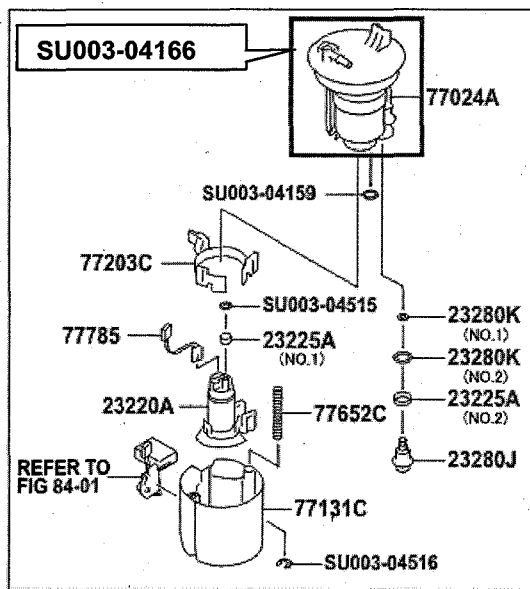

2013	FR-S
------	------

CONDITION

Fuel filter replacement is recommended at 75K miles. It may be difficult to determine which part is actually needed.

RECOMMENDATIONS

- The fuel pump or fuel pump assembly does NOT need to be replaced at this interval.
- Only the following part is needed: Part # SU003-04166 PLATE SUB-ASSY, FUEL SUCTION
- Part indicated below is the PLATE SUB-ASSY, FUEL SUCTION which includes the fuel filter
