Service Category

Audio/Visual/Telematics

Section

Navigation/Multi Info Display

Applicability

Multiple 14MY Vehicles

APPLICABLE VEHICLES

2014	Highlander	2014	Tundra
2014	RAV4	2014	Tacoma
2014	4Runner	2014	Sequoia
2014	Corolla		

CONDITION

Some 14MY Toyota models equipped with a new multimedia system have 3 settings for voice recognition prompts depending on how much voice guidance the customer prefers to have.

RECOMMENDATIONS

1. High - Full voice guidance. This is the default setting.
For the average user, it is recommended to keep the default setting.
2. Low - Minimal voice guidance.
In case of address input, this setting outputs confirmation guidance.
For advanced users, it is recommended to choose the "Low" setting if they do not wish to have full voice guidance. Voice prompts can be interrupted anytime by pressing Talk Switch.
Customers should be familiar with all commands and screen flows.
3. Off - No voice guidance
It is not recommended that customers turn off the voice guidance.

In the "Low" or "Off" settings, the system allows users to listen 3 times, so they can input on the second or third try.
