CONDITION

14MY 4Runner vehicles equipped with Navigation System may exhibit a condition which shows "No Map Data" on the navigation screen. This can happen when the vehicle is brand-new.

RECOMMENDATIONS

Re-calibrate the GPS system.

1. Place the vehicle in an open air space where a GPS signal can be received.

In order to check GPS signal, please refer to Operation Check in Repair Manual.
If GPS signal is not received, please refer to Problem Symptoms Table in Repair Manual.

2. Refresh the map screen by performing one of the two following steps.
 - (1) Key cycle OFF and ON.
 - (2) Leave the map screen and come back.
3. Confirm the navigation is working properly.
