

Service Bulletin

SERVICE UPDATE

SUBJECT: Service Update for Inventory and Customer Vehicles
Purge Solenoid Valve Replacement
Expires with Base Warranty

MODELS: 2013 Chevrolet Spark
Equipped with 4-Cylinder Engine (LL0)

This service update includes vehicles in dealer inventory and customer vehicles that return to the dealership for any reason. This bulletin will expire at the end of the involved vehicle's New Vehicle Limited Warranty period.

PURPOSE

This bulletin provides a service procedure to replace the purge solenoid valve on **certain** 2013 model year Chevrolet Spark vehicles, equipped with a 4-cylinder engine (LL0). The purge solenoid valve may have an internal gasket out of position.

This service procedure should be completed as soon as possible on involved vehicles currently in dealer inventory and customer vehicles that return to the dealer for any type of service during the New Vehicle Limited Warranty coverage period.

VEHICLES INVOLVED

All involved vehicles are identified by VIN in the Global Warranty Management System – Investigate Vehicle History Application. Dealership technicians should always check this site to confirm vehicle involvement prior to beginning any required inspections and/or repairs. It is important to routinely use this tool to verify eligibility because not all similar vehicles may be involved regardless of description or option content.

Additionally, a list of involved vehicles currently in dealer inventory is available on the “Service Update Bulletin Information” link under the “Service” tab in GM GlobalConnect. Customer vehicles that return for service, for any reason, and are still covered under the vehicle's base warranty should also be checked for vehicle eligibility.

PART INFORMATION

Parts required to complete this service update are to be obtained from General Motors Customer Care and Aftersales (GMCC&A). Please refer to your "involved vehicles listing" before ordering parts. Normal orders should be placed on a DRO = Daily Replenishment Order. In an emergency situation, parts should be ordered on a CSO = Customer Special Order.

Note: There are only 84 vehicles involved in this field action.

PLEASE DO NOT ORDER PARTS FOR SHELF STOCK.

To address stock vehicles, order only for VIN's in your current inventory.

To address sold vehicles, order only after a service appointment has been scheduled.

If necessary, order as a CSO3.

Part Number	Description	Quantity/Vehicle
96985666	VALVE, EVAP EMIS CNSTR PURGE SOL	1

Labor Code	Description	Labor Time
V2809	Install Evaporative Emission Canister Purge Solenoid Valve	0.2

DEALER PROGRAM RESPONSIBILITY

Whenever a vehicle subject to this service update enters your vehicle inventory, or is in your facility for service in the future, and the vehicle is still covered under the New Vehicle Limited Warranty, you must take the steps necessary to be sure the service update correction has been made before selling or releasing the vehicle.
