#### Airbag Warning Lamp ON, DTCs B200009, B200049 or U101200 Stored in Airbag Control Unit

If fault codes other than those listed below are present, bulletin does not apply.

DTC:	Description
B200009	Transm.Contr. Unit Malfunction
B200049	Internal Contr.Module Random Access Memory (RAM) Error
U101200	Voltage supply voltage too high

## **Technical Background**

The airbag control unit self-test may be susceptible to alarm horn resonance during the self-test causing the airbag light to illuminate in the instrument panel.

If this situation occurs, the airbag system remains operational.

## **Production Solution**

Not applicable.

## Service

• Install an alarm kit and replace the airbag control unit.
