PRELIMINARY INFORMATION

Subject: Remove Flocked Material from Front Side Door Interior Trim Panel During PDI

Models: 2013-2014 Buick Enclave
Condition/Concern

3453837

Two pieces of adhesive backed flocking material (black felt) are installed on the front side door interior trim panels as shown. This material is installed to protect the door panels during the build process.

Recommendation/Instructions

Remove the flocking material from both front side door interior trim panels during the Pre Delivery Inspection (PDI). Clean any adhesive residue from the trim panel. Use care to not damage the finish. For information on proper interior cleaning products, refer to the latest version of Bulletin Number 06-00-89-029.
