

Service Bulletin

File in Section: -

Bulletin No.: PI1139

Date: December, 2013

PRELIMINARY INFORMATION

Subject: Information on Elimination of Side Door Striker Trim Covers

Models: 2014 Chevrolet Corvette
Built On or After November 18, 2013

Condition/Concern

Some customers or dealers may comment that the vehicle is missing a black plastic trim cover over the door striker.

3666454

Effective with build date of November 18, 2013, the door striker trim cover was removed from vehicle production. The current build configuration is shown in the graphic above.

Recommendation/Instructions

3666460

Due to body variation, the Bowling Green assembly plant may add striker shims, therefore the trim cover will no longer sit flush against the door.

There is no requirement for the cover and cars built without the cover should not have one added.
