

TIB # 13-014

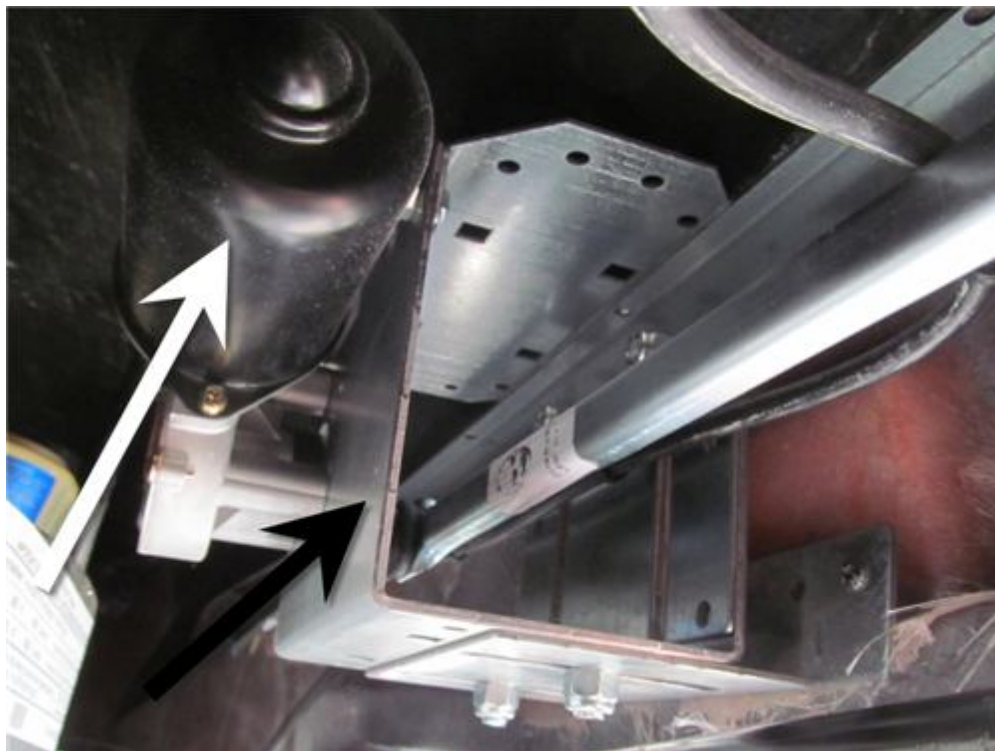

Issue: On certain CW Windsports, the wiper motor may not be secured to the cap

Released Date: 7/18/2013

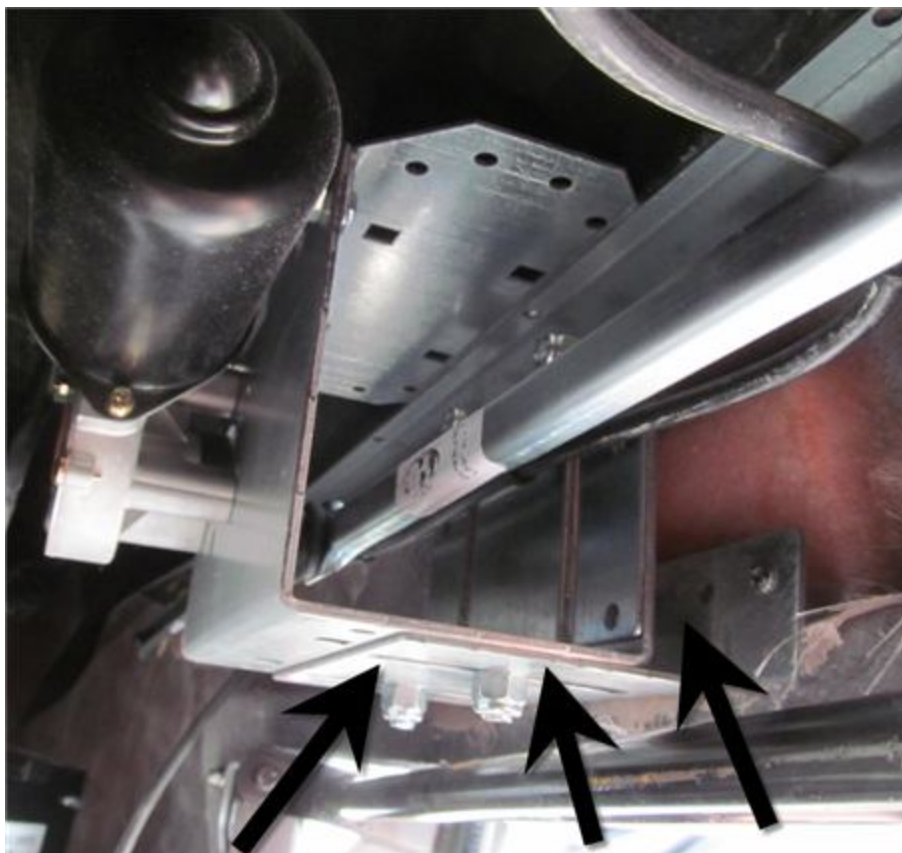

On certain Camping World Windsport units, the wiper motor may not be secured to the cap.

Instructions:

- 1. Open the hood.**
- 2. Locate the wiper motor. This should be towards the driver's side of the unit.**

3. Make sure the mounting bracket is present.

4. Look on either side of the mounting bracket to make sure there are screws securing it to the cap.
