Affected units were manufactured between January 14, 2013 and August 26, 2013.

Certain of these vehicles were manufactured with a Frigidaire KG Series convection microwave that has a quality defect in the oven membrane/keypad and may allow the oven to activate and begin heating while unattended. The microwave serial numbers that require the recall remedy, have a serial number range of **KG30607951 through KG31600670**. If items are being stored in the cavity and the microwave activates, it could result in excessive heat, smoke or possible fire inside the microwave. Upon confirmation that the serial number noted on your microwave is included in this recall, please unplug the oven until the oven is repaired.

Included with this Recall notification is an Information Sheet with instructions how to complete, sign and return to Jayco via fax, email or using the enclosed postage paid envelope. Upon receipt, Jayco will provide the contact information to Electrolux, for scheduling the recall repair. ***JAYCO DEALERS ARE NOT PERFORMING THIS RECALL REPAIR.***
