Dear General Motors Customer:

Your 2013 model year Chevrolet Camaro Coupe is equipped with a 3.6L V-6 engine and a 6L50 6-speed automatic transmission. We have learned that certain vehicles with this engine-transmission combination may have a transmission 2-6 clutch pack that was misbuilt. This could result in a rattle noise and reduced transmission torque capacity. If this occurs, a diagnostic code may be set and a malfunction indicator lamp may be illuminated. In addition, the transmission may be limited to the 3rd or 5th gear, however, reverse gear will still be available.

Your satisfaction with your Camaro is very important to us, so we are announcing a program to prevent this condition or, if it has occurred, to fix it.

What We Will Do: Your GM dealer will replace your vehicle's transmission. This service will be performed for you at **no charge until November 30, 2015**. After that, any applicable warranty will apply.

What You Should Do: To limit any possible inconvenience, we recommend that you contact your dealer as soon as possible to schedule an appointment for this repair. By scheduling an appointment, your dealer can ensure that the necessary parts will be available on your scheduled appointment date.

Courtesy Transportation: If your vehicle is within the New Vehicle Limited Warranty, your dealer may provide you with shuttle service or some other form of courtesy transportation while your vehicle is at the dealership for this repair. Please refer to your Owner Manual and your dealer for details on Courtesy Transportation.

If you have any questions or concerns that your dealer is unable to resolve, please contact the appropriate Customer Assistance Center at the number listed below.
