## TECHNICAL SERVICE BULLETIN

**SUBJECT:** NAVIGATION UNIT PART NUMBER AND  
SD CARD COMPATIBILITY

This bulletin provides information regarding navigation unit part numbers, and compatible SD Card part numbers, for some Cadenza (VG), Sorento (XMa) and Forte (YD) vehicles (see production dates in the table below). SD Card part numbers are matched and only compatible with particular head unit part numbers. Due to an error in the transition period from one matched set to the next, compatibility requires special attention for the limited production ranges identified below. Refer to the information outlined in this TSB for diagnosing and ordering parts to resolve SD Card/Navigation unit related issues.

### ★ NOTICE

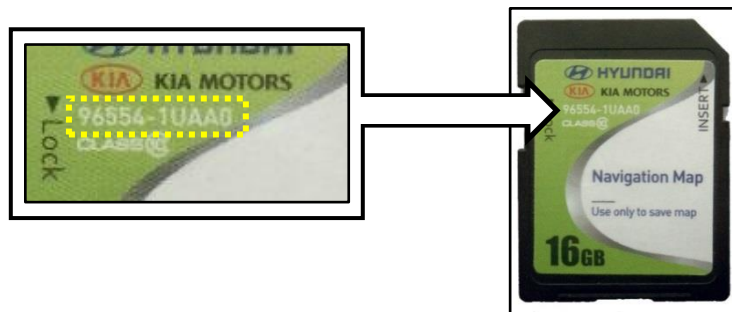

**Before replacing the navigation unit, make sure to check the navigation unit part number for the applicable vehicle production range. If the navigation unit is within the affected production range, order a suitable navigation unit for the original SD Card, as the SD Card will be reused.**

Model	Production Range	Original Navigation Head Unit P/N	Original SD Card P/N	New Navigation Head Unit P/N*
Forte (YD)	Oct. 21 ~ Nov. 12, 2013	96560 A7100WK	96554 A7110	96560 A7100WKFFF

## NAVIGATION UNIT PART NUMBER AND SD CARD COMPATIBILITY

### Cadenza (VG) Navigation Unit Version

Previous Navigation Unit P/N	SD Card	New Navigation Unit P/N
96560-3R105	96554-3R105 (For 2012 year map)	96560-3R105
	96554-3R106 (For 2013 year map)	96560-3R105FFF

### ✱ NOTICE

- Before ordering a new navigation unit from the table above, carefully check the vehicle production date and the navigation unit and SD card P/N. As an example, if the previous navigation unit P/N is 96560-3R105 and the SD card is 96554-3R106, be sure to order 96560-3R105FFF as a new navigation unit. Follow the same rules for all other models.
- Always order remanufactured navigation units for retailed vehicles and new navigation units only for non-retailed vehicles.
