Subject: 12-00704-50 – Potential Out-of-Date Software on CCB

PPG has been informed by its supplier that the 12-00704-50 Contactor Control Board could have out-of-date software when used in a Vector 8600MT that may affect the unit's performance. 12-00704-00 boards are not affected.

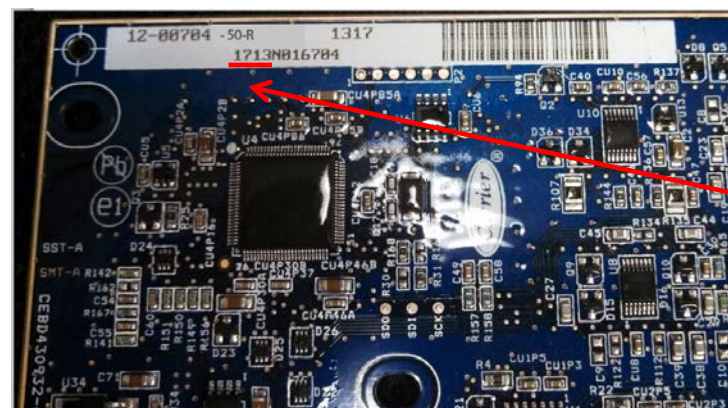

If you have purchased this item, please look at the product's box or board itself to view the date code. Boards with a date code **equal to or prior to** "4013" may have out-of-date software. Please follow the instructions below to return these boards.

Date codes can be found in two locations - on the box, or on the board itself.

TO DETERMINE DATE CODE:

PACKAGE LABEL

BOARD

Date code Example
1713

IF	If the first two digits of the date code are a "40" OR less,	<u>AND</u>	The 2 nd set of two digits is a "13"	Then contact PPG Customer Service by phone at 800-255-7382 to initiate a return*
-----------	--	-------------------	---	---

*These CCBs are on the Dealer Required Stocking list (A-Item list, 62-90414-00). Please place a new order for a replacement, 12-00704-50 by phone with PPG Customer Service. Freight will not be charged on these replacement orders.

If you have any questions about the 12-00704-50 boards that were already put into service in Vector 8600MTs, please contact your FSE. Do not update the unit software.
