

# Service Bulletin

## PRELIMINARY INFORMATION

**Subject:** Perceived Engine Oil Or Transmission Fluid Leak On Torque Converter Housing Or Crossmember

**Models:** 2015 Chevrolet Colorado  
2015 GMC Canyon  
With Automatic Transmission (RPO MYB)

The following diagnosis might be helpful if the vehicle exhibits the symptom(s) described in this PI.

### Condition/Concern

Technician or customer may see what looks like an oil drip on the inspection plug on the bottom of the torque converter housing or on the crossmember.

### Recommendation/Instructions

Remove the inspection plug with a pick tool and inspect the fluid on it.

This may be grease from assembly of the transmission to the engine that has migrated to the bottom of the torque converter housing. This will be much thicker than oil.

If this is found, clean out the inspection hole and plug with degreaser and reinstall the plug. Clean any other effected surfaces.

## Warranty Information

For vehicles repaired under warranty use:

Labor Operation	Description	Labor Time
8480178*	Remove Inspection Plug and Clean Out The Inspection Hole And Plug	0.3 hr
* This is an unique labor operation for bulletin use only. This will not be published in the Labor Time Guide.		

Please follow this diagnostic or repair process thoroughly and complete each step. If the condition exhibited is resolved without completing every step, the remaining steps do not need to be performed.

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, DO NOT assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
