#### BACKGROUND

For any TPMS-related warranty repairs, all recorded DTCs must now be entered into the warranty claim. Make sure your repair order includes those DTCs.

### WARRANTY CLAIM INFORMATION

Any TPMS-related claims submitted without a DTC entered in the DTC field will be returned with Error Code of 2077.

American Honda does not pay for warranty claims for the following:

- Adjusting tire pressures as a result of DTCs 11, 13, 15, 17, 151-11, or C0077-78
- DTCs 32, 34, 36, 38, or 41 with the TPMS indicator on due to:
  - Accessory wheels being installed without following installation instructions
- Calibration not done when tire pressures were set or tires were rotated or replaced on a vehicle with indirect TPMS
- A physically broken TPMS sensor caused by either the dealer or the customer
- · A DTC caused by installation of incorrect sensors

For all other TPMS-related repairs, the normal warranty applies.

END

**CUSTOMER INFORMATION:** The information in this bulletin is intended for use only by skilled technicians who have the proper tools, equipment, and training to correctly and safely maintain your vehicle. These procedures should not be attempted by "do-it-yourselfers," and you should not assume this bulletin applies to your vehicle, or that your vehicle has the condition described. To determine whether this information applies, contact an authorized Honda automobile dealer.
