Title: Ghost Codes - False Codes

Applies To: All Engine Platforms

CHANGE LOG:

Dealers: Please refer to the change log text box below for recent changes to this article:

6/17/2014 - Initial Article Release

DESCRIPTION:

This iKNOW article provides the information needed to address false monitors or "Ghost Codes" on all engine platforms. The codes listed below are either under investigation or will be corrected in the next calibration release for the corresponding engine platform. Check the Service Portal and iKNOW system frequently for any new updates.

Customer Complaint(s):

- Check Engine lamp and/or Malfunction Indicator Lamp (MIL) illuminated.

2013 NAVISTAR N13 ENGINE:

SPECIAL TOOL(s) or SOFTWARE

Tool Description	Tool Number	Comments
Electronic Service Tool (EST)		

Fault Codes Under Investigation

Certain N13 engines may experience service engine lights from the below DTCs. The issues are calibration related and currently under investigation to correct the erroneous triggering of these fault codes. If units are brought into the dealer specifically for these faults, please clear the fault and do not diagnose these codes at this time. Check the Service Portal frequently for new calibration releases.

DTC	Description
102-16	Intake Manifold Pressure Over Boost
3061-31	Inlet Air Heater System Warm-Up Fault During CSER

DIAGNOSTIC PROCEDURE:

Step	Action	Decision
1	Clear the fault code. • Use Electronic Service Tool (EST) to clear the fault code. This code will be corrected in the next calibration release. Check the scorecard frequently.	Repair Complete.

2010 & 2013 (OBD) MaxxForce DT, 9 & 10 Engine Serial Number 3300000 and up:
