

TECH TIP

11MY-15MY Engine Hour Meter Reset Procedure

OVERVIEW:

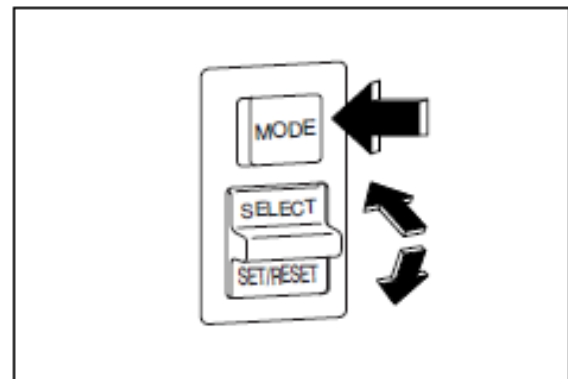

The following procedure is for resetting the engine hour meter display showing total running time, driving time, and idling time of the vehicle in minutes and seconds. Total shows the time from engine start to engine stop. Drive or Idle shows the time of total driving time and total engine idling time. When the hour meter reaches 999.9 it will stop. The display can be reset to 0 to continue tracking engine hours for maintenance purposes by following the procedure below.

SUBJECT VEHICLES: 11MY-15MY Conventional trucks

Note: This technical tip is provided as technical information and is not authorization for a warrantable repair.

RESET PROCEDURE:

1. Push the mode button until the engine hour meter is displayed. The values on total, drive, and idle can be reset by pushing and holding the SET/RESET button down for at least one second.
