SERVICE BULLETIN

REASON FOR RELEASE: To mitigate injury due to sharp edges projecting from the leading end of the rear passenger flip seats.

DIRECTIONS: Examine all rear passenger flip seats for sharp edges. Any sharp areas must be ground down smooth and recoated. Look for rubbing points that over time can lead to sharp edges to develop. Should you find a modification is required to avoid rubbing contact Fleet Operations to assist.

Areas of greatest concern is shown in the photo below:

NOTE: All work must be performed by qualified personnel. Use only authorized components, specified or provided by Ride The Ducks. All applicable OSHA safety standards and safe industry practices must be observed. Observe all safety information contained in the manufacturers manuals. Make available this bulletin and all related technical information to personnel using the equipment.
