991 engine - SE5 clutch chatter at take off - TST available [New]

Options ▾

09-13-2014 09:52 AM

Good day everyone, this post is to inform you that a new version of the TST which addresses the SE5 clutch chatter at take has been published. I recommend everyone take a look at it and respect these new guidelines.

This is presently only noted on 2013 SE5 units but if you have any 2014 SE5 units doing this it is important to open a BOSSWeb Case and let us know.
