From Acura Parts and Service National
Subject Customer satisfaction campaign 2015 TLX/MDX ODMD software update

To: Dealer Principal, General Manager and Service Manager;

To maximize the positive effects of the updated ODMD software for 2015 TLX and MDX (and reduce client confusion), we are encouraging everyone to update all your on ground inventory immediately and of course all the inbound inventory which still requires updating as it arrives (at TQI).

Thank you very much, with any questions please contact your DPSM.
