SUBJECT: **EPA10 and GHG14 Diesel Particulate Filter (DPF) Compatibility**

ISSUE

Diesel Particulate Filter (DPF) core availability can fluctuate over time, causing a disruption in availability. To allow greater flexibility to our customers, we have determined that some, but not all, Diesel Particulate Filters (DPFs) are interchangeable between EPA10 and GHG14 engines. For 1-BOX™ Aftertreatment Systems (ATS), this is only possible when the filters are used in pairs. You **CANNOT** mix one EPA10 and one GHG14 DPF in the same 1-BOX™ ATS due to exhaust flow issues.

Table 1 provides a list of DPFs and their compatibility with various ATS types. DPF part numbers that are **NOT** listed in the table are **NOT** interchangeable.

EPA10 DPF	GHG14 DPF	New/Reman	ATS Application	Comments
EA6804910894	DPF P/N: A6804913494, serviced with kit P/N: EA0014903492	New	1-BOX™	Directly interchangeable between EPA10 and GHG14
RA6804910894	DPF P/N: A6804913494, serviced with kit P/N: RA0014903492	Reman		
EA6804910794	DPF P/N: A6804913694, serviced with kit P/N: EA0014904092	New	2HH, 2HV, and 2V2	Directly interchangeable between EPA10 and GHG14
RA6804910794	DPF P/N: A6804913694, serviced with kit P/N: RA0014904092	Reman
