General Communication

Number: VWC-14-06

Subject: Identifying Vehicles with PZEV Emissions Warranty Coverage

Date: June 6, 2014

This document conveys Volkswagen Warranty general information.

(Supersedes VSK-01-2008 – Revised to add US9 “Warranty Key” and update Vehicle Emission Control Information Label examples)

Volkswagen models that qualify for the Partial Zero Emissions Vehicle (PZEV) emissions warranty are maturing and reaching the milestones in time and mileage where this warranty coverage could apply. Volkswagen wants dealership personnel to be able to identify these vehicles when they are in for service.

PZEV Emissions Warranty

Under the PZEV emissions warranty, all emission-related components are covered up to 15 years or 150,000 miles, whichever occurs first. For the complete PZEV emissions warranty policy, please refer to the Warranty Policies and Procedures Manual.

- ▶ Section 3.24 Emissions Warranties
- ▶ Section 3.24.2.3 15/150 PZEV California Emissions Warranties Table
- ▶ Section 6.6 California Emissions Warranties

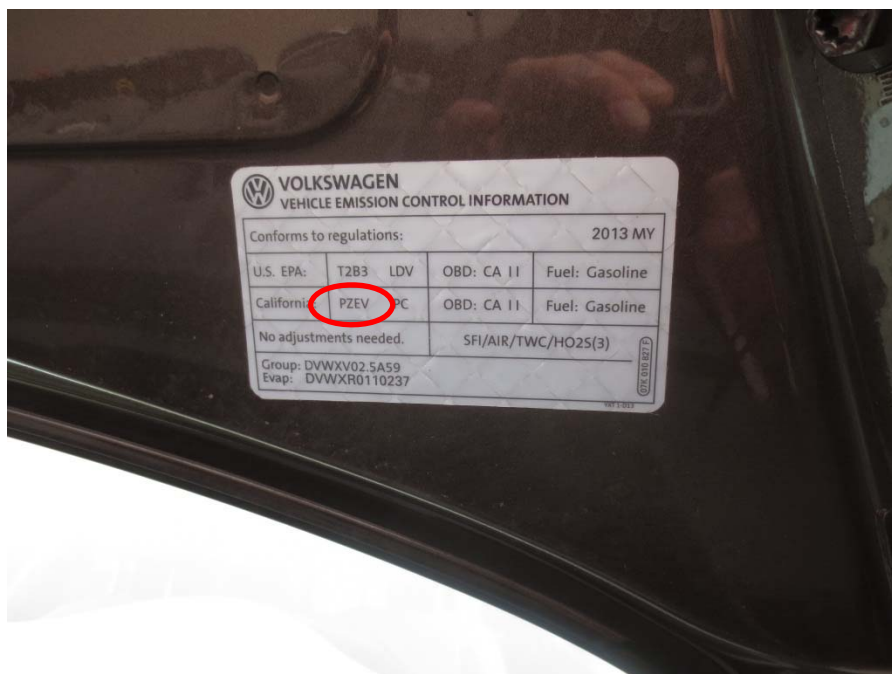

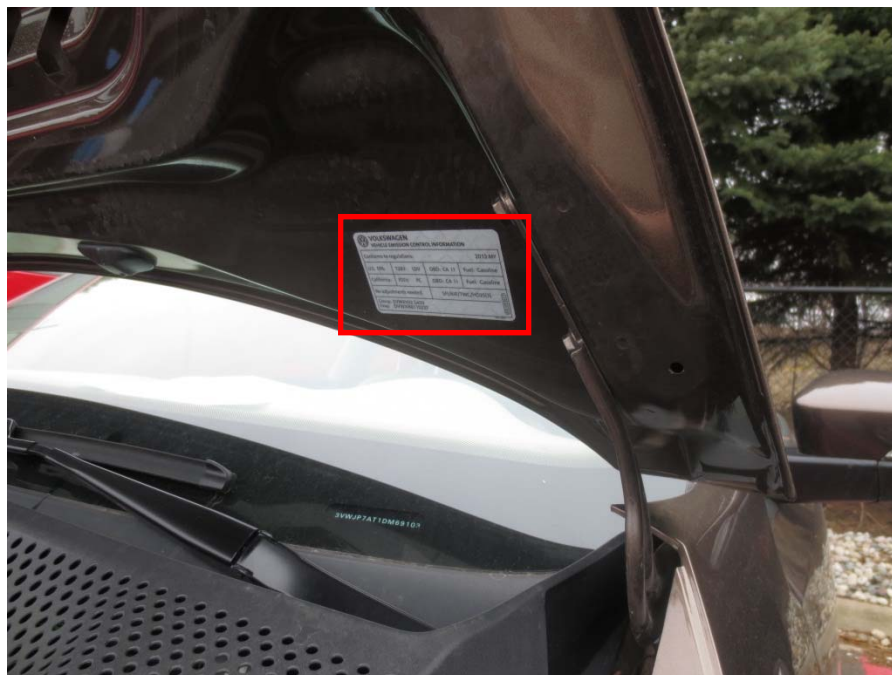

How to Identify a PZEV Vehicle

There are two ways to identify a PZEV vehicle:

1. Check the VIN for “Warranty Key” US9 (PZEV Coverage See Warranty Policy) in ElsaPro > Vehicle Data. Remember the “Warranty Key” section heading in ElsaPro only appears if a “Warranty Key” is attached to the VIN.
2. Check the Vehicle Emission Control Information label which is located under the hood of the vehicle. Following are some examples of the Vehicle Emission Control Information label:

		VOLKSWAGEN VEHICLE EMISSION CONTROL INFORMATION		
Conforms to regulations:				2014 MY
U.S. EPA:	T2B3	LDV	OBD: CA II	Fuel: Gasoline
California:	PZEV	PC	OBD: CA II	Fuel: Gasoline
No adjustments needed.			DFI/AIR/WU-TWC/TWC/ WR-HO2S/HO2S/CAC/TC	
2.0L – Group: EVWV02.03PA				
Evap: EVWXR0110D37				
06J 010 005 A
