Warranty - Technical Support – Product Quality

Audi Warranty, Technical Support, Product Quality Communication	**Number: AWC-14-02**
Subject: MY2015 A3 vs. ODIS Software Version 1.19.55	**Date: Mar 07, 2014**
To: U.S, Puerto Rico Dealers	**This document conveys General Information.**

It is always our joint priority to be proactive, and keep dealership service personnel up-to-date with situational information we become aware of. Now is such a circumstance.

MY2015 Audi A3 – ODIS software version 1.19.55

1. Vehicle Identification test - the ODIS program <u>will automatically select MY2014</u> for the vehicle instead of MY2015. **Be aware this selection makes <u>no</u> difference in diagnosis and it will not affect any function test.**

2. Engine code display for 2.0L engine – The Engine Code selection list <u>will display CNTA</u> for the 2.0L engine when the correct engine code is CNTC. **Be aware this selection display (CNTA) makes <u>no</u> difference in diagnosis and it will not affect any function test.**

It is important to note here that the amended model year and engine code selections for the MY2015 A3 will be included on ODIS software update 1.19.56, available the last week of March (CW13).

Thank you.
