Subject: Missing Engine Code CYFB for the MY2015 S3 2.0L

Date: Jun 27, 2014

To: U.S, Puerto Rico Dealers

This document conveys General Information.

It is always our joint priority to be proactive, and keep dealership service personnel up-to-date with situational information we become aware of. Now is such a circumstance.

MY2015 Audi S3 2.0L – ODIS software version 1.19.58.3404

The correct engine code for the 2015 Audi S3 2.0L is CYFB, but on the current ODIS version 2.1.1 (1.19.58.3404) this engine is missing from the engine code drop down menu. Please use engine code CJXF instead until it is corrected on the next ODIS update.

Selecting code CJXF instead of CYFB will make no difference in diagnosis and it will not affect any function test.

NOTE: It should be a standard practice at the dealership to verify the engine code in Elsa before selecting the engine code in ODIS.

Thank you.
