

**No: 14 CSA-22**  
October 24, 2014

TO: Distributors and Their Branches – North America  
ATTN.: General Manager, Service Manager  
FROM: Detroit - Customer Support Center  
SUBJECT: **DTNA Chassis Wiring Diagrams**

**This letter replaces 05CSA-1.**

### **GENERAL INFORMATION**

To assist distributors with troubleshooting engine and aftertreatment fault codes, the Detroit™ Customer Support Center (CSC) has the ability to provide wiring diagrams for Daimler vehicles. To obtain a wiring diagram, please submit your request via e-mail at [csc@daimler.com](mailto:csc@daimler.com). To fulfill your request, we will need a minimum of the last six digits of the Vehicle Identification Number (VIN) and a return e-mail address.

### **NOTE:**

Only wiring for chassis components that impact engine and aftertreatment operation will be provided. To ensure an accurate response, please make sure you specify the wiring area required. Good descriptions are important to allow us to provide the correct diagram.

All wiring diagram requests will be processed within one business day.

### **CONTACT INFORMATION**

Please contact the CSC at [csc@daimler.com](mailto:csc@daimler.com) if you have any questions.
