

Service Information

VAS Tester

Number: AVT-14-26

Subject: Discontinuation of VAS-PC Online Access

Date: Dec. 16, 2014

IMPORTANT!

Volkswagen AG is discontinuing **GeKo ID and password** access to all VWAG Group systems when these credentials are submitted via the **VAS-PC** diagnostic software platform.

This change is scheduled to take place on **December 31, 2014**.

What this means to you:

Any diagnostic devices that remain in service with VAS-PC diagnostic software will no longer be able to perform diagnostic procedures requiring a GeKo ID and password.

Examples:

- Immobilizer adaptations required for keys and control module replacements
- Software Version Management (SVM) procedures
- Radio Code inquiries

Please inform all affected Service Personnel!
