Background

American Honda (AHM) is investigating certain 2013 CR-Vs with a complaint of a buzzing, humming noise or vibration coming from the HVAC assembly. To fully understand the cause of this condition, AHM would like to inspect the vehicle prior to your attempting a repair of any kind.

Qualifiers

AHM is interested ONLY if the vehicle meets the following requirements:

1. Must be able to duplicate the issue.
2. No previous repair to the HVAC assembly.

Action Required

If you have or know of such a vehicle, please call Technical Research & Support (TRS) Group at 800-880-1072. TRS will need to record certain vehicle information and provide you with further instructions.

Thank you.
