RE: 2001-11 Multi-Model Airbag Inflator Recalls **VIN STATUS INQUIRY UPDATE**

On Monday, June 23, 2014, American Honda announced three recalls for various 2001-11 Honda models. As of August 4, 2014, affected VINs have been identified, and VIN status inquiry has been updated. Refer to service bulletins 14-040, *Safety Recall: Accord, Civic, and Others – Front Passenger’s Airbag Inflator Can Be Over-Pressurized*, 14-045, *Recall: Front Driver’s Airbag Inflator May Produce Excessive Pressure After Long-Term Exposure to High Absolute Humidity Recall*, and 14-046, *Recall: Front Passenger’s Airbag Inflator May Produce Excessive Pressure After Long-Term Exposure to High Absolute Humidity* for further instructions on addressing affected units.

Parts to support this issue remain unavailable at this time. American Honda will notify you once additional information is available regarding this situation.
