

## General Information

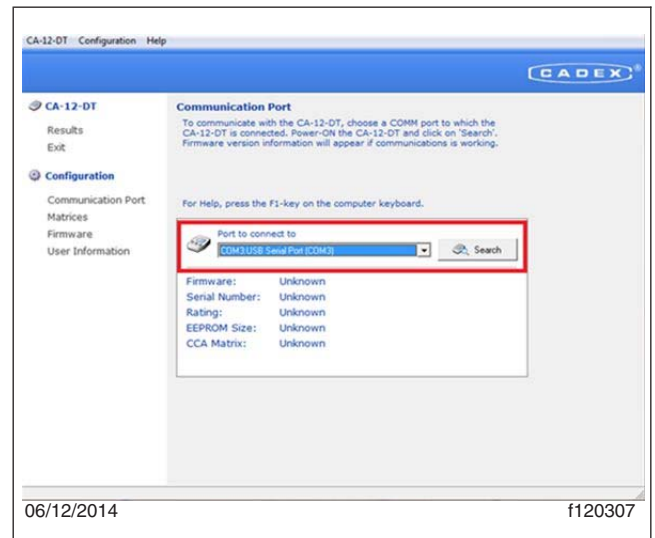

Cadex battery testers recently distributed to the field cannot print tester data without using a code that is specifically assigned to each tester. Use the instructions in this bulletin to locate the code.

## Instructions

1. Park the vehicle, shut down the engine, and apply the brakes. Chock the tires.
2. Go to <http://www.cadex.com/en> and click on **Subscriptions**.
3. Download the software. The password is "capacity". See [Fig. 1](#).
4. Connect the Cadex battery tester to a computer using the supplied serial-to-USB cable. Open the software and click on **Communication Port**, which is located on the upper left-hand side of the web page. Select the USB Serial Port. See [Fig. 2](#).

**Fig. 1, CA-12-DT Daimler Battery Tester Update Link**

**Fig. 2, Communication Port**

5. Select the folder where the file will be saved. See [Fig. 3](#).
6. Click **Get Results**.
7. Once the results show up on the screen, click **Open** to find the file. See [Fig. 4](#).
8. Find the folder where the file is saved and open the file. See [Fig. 5](#).
9. Once the Excel file is open, scroll to the bottom of the last column to locate the code for the battery. See [Fig. 6](#).

## Warranty

This is an informational bulletin only. Warranty does not apply.
