RE: 2003-05 Civic SRS Healthy Parts Call-In Expiration

On April 8, 2014, the 2003-05 Civic SRS healthy parts call-in activity will be expired. A sufficient number of parts have been collected for analysis, and no additional collection is necessary at this time. All VIN inquiry links to S/B 13-099: *Voluntary Driver's Airbag Study* will be removed for all vehicles that have not already had the driver's airbag inflator replaced through this parts collection project.

All valid claims currently in progress will be processed and paid through normal procedures. However, any claims received with RO dates later than April 7, 2014 will be debited. Please be sure to have all valid claims submitted by April 21, 2014.
