Subject Safety Recall: 2007-08 Odyssey VSA Software Error PARTS UPDATE

DATE: April 9, 2014

TO: All Honda Sales, Service & Parts Managers and Personnel
FROM: American Honda Parts, Service & Technical Division, Campaign Administration

RE: Safety Recall: 2007-08 Odyssey VSA Software Error **PARTS UPDATE**

On October 31, 2013, American Honda notified NHTSA of a **Stop Sale** order and **Safety Recall** for all 2007-08 Odyssey vehicles. Any used vehicles in dealer stock must be repaired prior to sale per S/B 13-098, *Safety Recall: 2007-08 Odyssey VSA System Unexpectedly Activates*. **Refer to VIN Inquiry status to determine which vehicles in your inventory are affected.**

Parts to repair vehicles affected by this recall are now available through open order and no longer require DPSM approval or intervention to acquire.

American Honda will begin notifying customers that parts are available beginning April 28th.

As always, be sure to check VIN Inquiry status to ensure a particular vehicle is eligible for this recall.
