2013-2014	Land Cruiser	2013	Sequoia
2012-2014	Camry HV		

CONDITION

When replacing the Hard Disk Drive (HDD) or Navigation Unit (Navi Unit) follow the instructions below:

RECOMMENDATIONS

1. Remove the Navi Unit from the vehicle and replace the HDD or the Navi Unit.
2. Install the Navi Unit in the vehicle and press the ignition start button once without stepping on the brake pedal (ACC ON). →Screen shows: **“System Loading. Don’t turn off the power.”**
3. After loading completes, the map will be displayed on the screen.
4. Press the ignition start button twice without stepping on the brake pedal (this will switch the vehicle off) and **WAIT FOR SIX MINUTES.**

CAUTION

Skipping step 4 will cause the audio to fail.
DO NOT disconnect the wire harness from the Navi Unit or press the ignition start button during the update process.

- Once the HDD is inserted into the Navi Unit, the HDD has been paired with it.
- Once paired, it cannot be used with any other Navi Unit or other HDD.
