PRELIMINARY INFORMATION

Subject: SI Diagnostics Determines The Engine Repair Requires Crankshaft Replacement

Models: 2014-2015 Chevrolet Corvette, Silverado
2014-2015 GMC Sierra
2015 Chevrolet Tahoe, Suburban, GMC Yukon / XL
2015 Cadillac Escalade
With engines 4.3L, 5.3L, 6.2L L83, L86, LT1, LV3

The following diagnosis might be helpful if the vehicle exhibits the symptom(s) described in this PI.

Condition/Concern

If you have determined the crankshaft needs to be replaced, please use following information before considering a crankshaft replacement

Recommendation/Instructions

Please be sure to complete the SI diagnostics to determine if the crankshaft requires replacement.

If you have determined the engine has bearing and crankshaft damage, the engine should be replaced along with the oil cooler.

Be sure to follow the latest version of 09-06-04-026G to verify the ECM calibration is not an Aftermarket cal

Note: It is recommended on dry sump engines, the oil tank and lines should be also be replaced

If the customer prefers to KEEP the original numbers matching with a Corvette engine please call TAC for repair direction.

Warranty Information

The correction for this concern may be one of several repairs described above. For vehicles repaired under warranty, please use the appropriate warranty labor operation based on the actual cause and repair.

Please follow this diagnostic or repair process thoroughly and complete each step. If the condition exhibited is resolved without completing every step, the remaining steps do not need to be performed.

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, DO NOT assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
