New Safety Recall Advanced Communication – P08030614

Chrysler Group LLC (Chrysler) announced a safety recall on certain 2011 and 2012 model year (LD) Dodge Charger vehicles.

The headlight wiring harness connectors may overheat. This could cause a loss of low beam headlight function without warning. A loss of headlight(s) during nighttime driving could cause a crash without warning.

Chrysler will conduct a voluntary safety recall on all involved vehicles to inspected, and replaced if necessary, the headlight wire harnesses.

Dealers will be notified of the launch of this safety recall by way of established methods used in the past. Chrysler anticipates the launch of this safety recall in April 2014.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries on involved vehicles.
