SUBJECT

NEW N63T Engine: Test Plan to Check Engine Oil Level

MODEL

NEW

F01 (7 Series Sedan)

F02 (7 Series Sedan)

F06 (6 Series Gran Coupe)

F07 (5 Series Gran Turismo)

F10 (5 Series Sedan)

F12 (6 Series Convertible)

F13 (6 Series Coupe)

F15 (X5)

F16 (X6)

NEW INFORMATION

The test plan will help identify the actual oil level, and advise the amount that will need to be added to correctly fill the engine when topping up. When performing the scheduled oil service and filling the engine with the amount specified, the applicable ISTA/D repair instruction does not require performing this test plan.

Applicable models:

- F01 and F02 with the N63T engine with I-Level F001-13-03-501 or higher
- F06, F07, F12 and F13 with the N63T engine with I-Level F001-13-03-501 or higher
- F10 with the N63T engine with I-Level F010-13-07-501 or higher
- F15 and F16 with all I-Levels

Test plan path:

1. Select "Service Function."
2. Select "Drive."
3. Select "Motor Electronics."
4. Select "Motor Oil."
5. Select "Oil Level."

6. Select “Continue.”

7. Follow the steps as directed in the test plan to complete the measurement.

Always refer to ISTA/D for the recommended oil type and the amount required, using the VIN number of the vehicle.

IMPORTANT:

Do not perform this test plan on the following vehicles:

- Performing the test plan on any vehicle with the N63 engine will result in an inaccurate measurement.
- Performing this test plan on any vehicle with the N63T engine without the applicable I-Levels stated above will result in an inaccurate measurement.

Do not perform this test plan when performing engine oil services. Fill the engine with the specification found in ISTA/D.

WARRANTY INFORMATION

Not applicable.
